

HERE
COMES
THE
SUN...

HELLO TOMORROW

GENESIS ENERGY

Invites four students and one teacher from your school to attend the Schoolgen Energy/Cluster Day

**Thursday 14th March 2013
Tauranga intermediate School Hall**

Schoolgen is a programme developed by Genesis Energy to bring solar energy and energy efficiency to life for children across New Zealand.

The Schoolgen Energy Cluster Day is an opportunity for primary and intermediate schools to experience a day of advanced learning and fun for students and teachers.

The Energy Cluster Day provides a science extension programme for a lead group of Gifted and Talented students, ideally in Years 6 - 8.

The students participate in a series of activities and presentations related to solar energy and electricity, led by experts.

The Energy Cluster Day is also professional development for a group of teachers who will be accompanying the students; exposing them to new concepts about solar energy and the Schoolgen website and resources.

We hope to see you there!

9.30am - 2.15 p.m.

Thursday 14th March 2013

Tauranga Intermediate School
30 Eighteenth Avenue, Tauranga South

Morning tea and lunch will be provided for teachers and students.
